DETAILED ACTION

Allowable Subject Matter

1. Claims 10-14 and 22-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The current invention claims executing an embedded high level language element in a script to generate a script fragment and interpreting a processed script (including the script fragment) to generate a voice response. The current invention further claims interpreting the generated script fragment to select an audio prompt randomly, or with a pre-determined order, or from a variable list of audio prompts, and to route an incoming call to other application(s). Voice XML Forum teaches interpreting that only generates audio response, but not other further functions as claimed.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
